UC San Diego Spring 2026 Move-Out Report

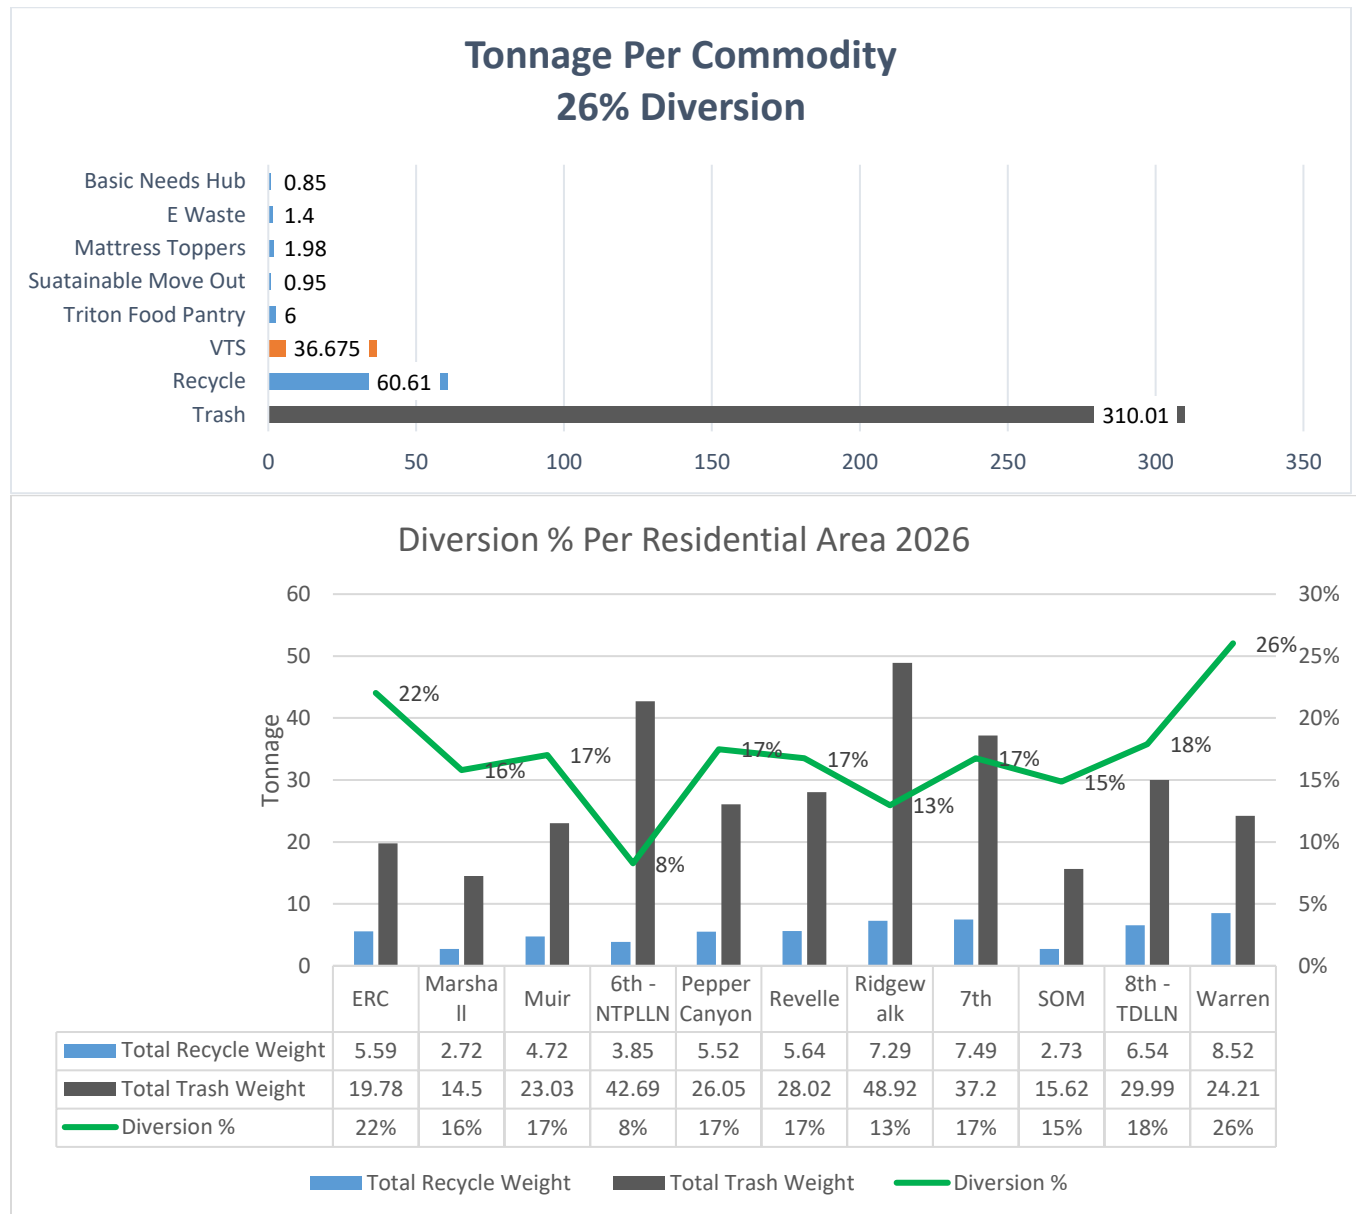

UC San Diego

Spring 2026 Move-Out Report

EDCO is proud to be the exclusive recycling and solid waste collection services provider for UC San Diego.

EDCO provided 38 roll-off containers and 3-3cy recycle bins at 18 key central locations throughout campus. The Move-Out period was June 10th – June 18th, targeting eleven of UC San Diego's residential areas. Our team's collective goal was to monitor activities, learn, and ensure students utilized the diversion containers.

The combined efforts successfully diverted a total of **108.5 tons** from the landfill. EDCO has embraced UC San Diego's **Zero Waste** goals and is committed to helping the university on the *Road to Zero Waste*.

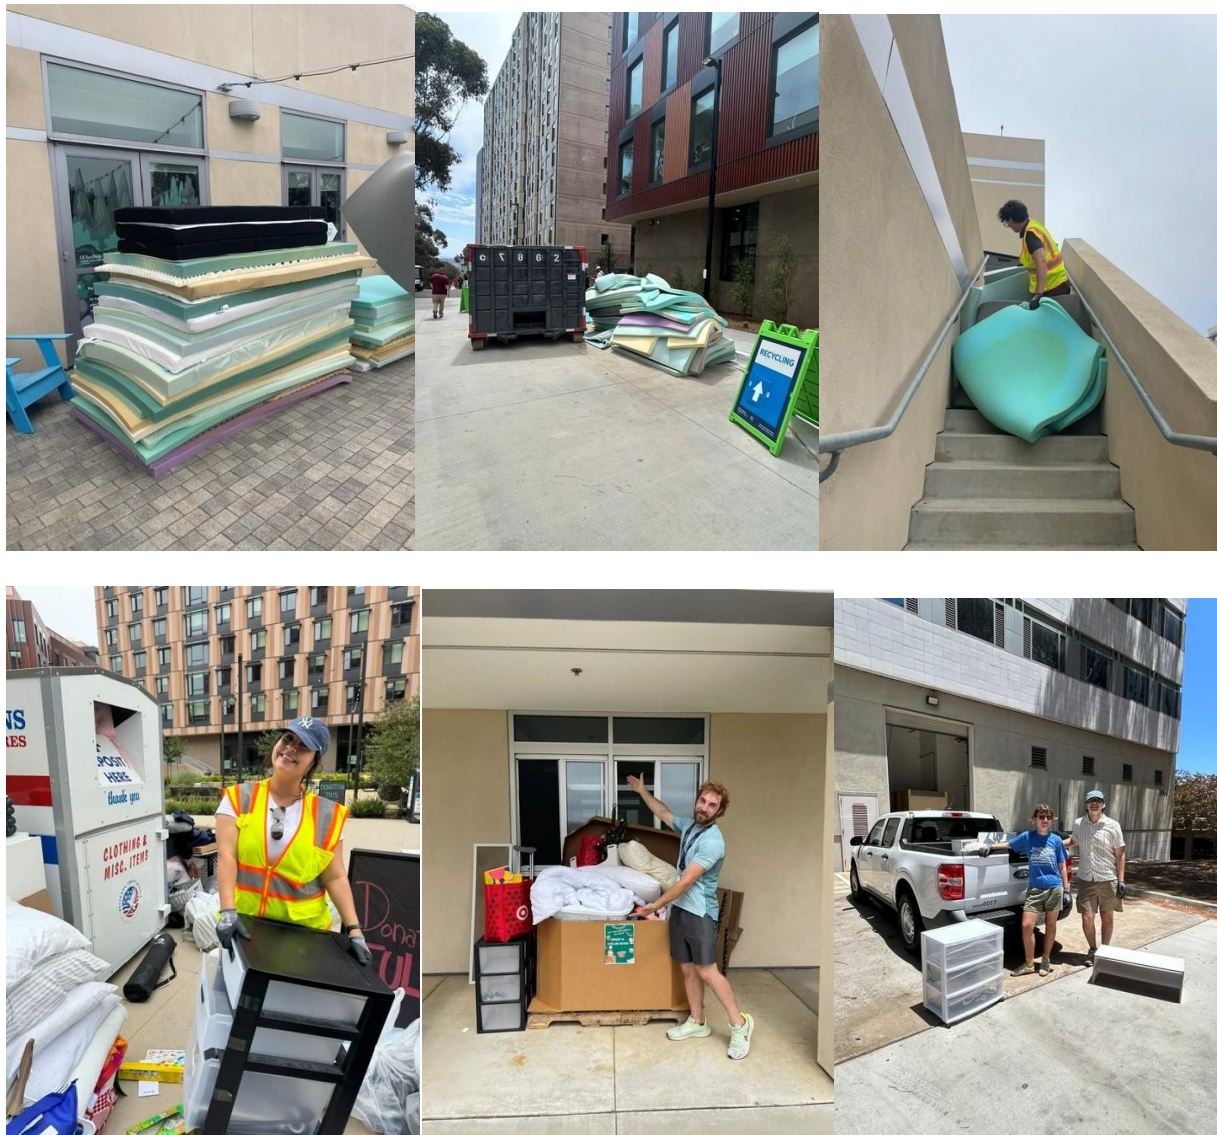

UC San Diego

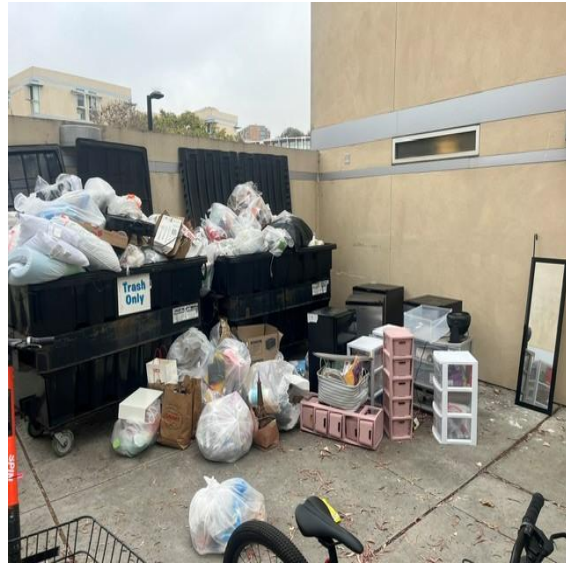

Spring 2026 Move-Out Report

Key opportunities for improvement include enhanced education and outreach efforts focused on recycling, targeting students, employees, and volunteers to increase participation and reduce contamination.

The Basic Needs reuse program continues to provide valuable opportunities to divert usable materials from disposal while supporting students in need. In addition, mattress topper collection and recycling efforts were successful during move-out and present an opportunity to further increase diversion through a more structured and expanded program in future years.
